

Changing the Face of Investing

Yes, it's a financial industry.
But it's a people business.

Our History and Identity

An independently run and privately owned wealth management firm, HJ Sims has an extensive history managing wealth and helping to generate income for our clients. Infused with a pioneering spirit, HJ Sims has been helping individuals and organizations realize their potential since 1935.

Our founder, Herbert J. "Herb" Sims, was an innovative and revolutionary thinker. In the midst of the Great Depression, Herb opened a one room investment office with money loaned from an influential venture capitalist – his mom.

Herb saw enormous potential to create jobs and support important infrastructure – like gas energy systems, bridges and causeways. He identified high-yield instruments that delivered when others defaulted. He shared insights that transformed a small office into a team of investment banking and wealth management experts. Herb built our company on teamwork, diversity and mutual respect.

Our Legacy

"Work hard, do your homework, talk straight and produce results." Those were the words our founder lived by. With this foundation in mind, HJ Sims has fostered a culture of original thinking and a willingness to challenge the status quo.

As one of America's most tenured financial services firms, we remain true to our founding principles and a long tradition of loyalty, teamwork, integrity and expertise – this is our legacy. The name on our door is a continuing reminder of where we came from – and of where we are going.

Sophisticated Investments for the Elite Investor

An Alternative Approach.

How do you define income?

At HJ Sims, we challenge the customary definition of “income.” With dependable advice and efficient execution, we have redefined income as a leader in tax-exempt and taxable securities, private placements and other alternative investments. Whether it means possibly generating income from dividend-paying stocks, or earning interest from individual bonds, we evaluate and recommend a diverse range of investment strategies – helping you earn the income you need to meet your financial and lifestyle goals.

Exclusive Investments in Specialty Municipal Finance

We believe you have a distinct advantage when your portfolio is invested in individual bonds, rather than exclusively in large bond funds. With HJ Sims, not only do you have access to an entire universe of potential income-generating offerings, you are exclusively invited to invest in specialty municipal issues that have been underwritten by our investment banking team and uniquely crafted by our experts – investments that come with rigorous in-house due diligence and often entice our colleagues to invest their own funds. Large institutions typically wait for these same bonds. As our client, you are first in line.

Private Placements

Is your portfolio not performing to your expectations? Is there a void in your asset classes? Private Placement investments, frequently higher risk and higher yielding, offer a sophisticated product class for the qualified investor. Private Placements are illiquid and speculative investments and complete loss of principal may occur. Our Private Placements are designed to pay interest and feature best-efforts liquidity; however there is no guarantee of liquidity or performance.

Alternative Investments

In addition to Private Placements, we deliver a range of alternative investment strategies and products. Alternative investments, such as private equity, hedge funds and alternative real estate investment opportunities provide for added diversification of your portfolio. No matter the investment vehicle, we work tirelessly to provide first-class service and sophisticated strategies for the accredited investor.

We recognize that your financial situation is as unique as your game plan. We work with you, respecting your investment IQ, while relying on our pioneering spirit for innovation and deep expertise to structure your portfolio, accordingly.
